

Mrs Regan - Teaching Assistant.

I have been working at GPNS since September 2016 and for 12mths at CPS before this. My role involves lots of variation within the day which ensures every day is different, interesting and fun. I enjoy working with each child, as whole class, small groups and 1:1, supporting them in every way I can both academically and socially and emotionally through classroom activities, interventions and our Emotionally Healthy Schools programme.

Outside of school I spend my free time doing a variety of things such as, time away in Wales, paddle boarding, walking, reading and being as active as I can with my family. I also enjoy socialising with friends, often having BBQs or visiting new places with them.
